Education

Bachelor of Science in Psychological Sciences with Highest Distinction
Bachelor of Arts in Spanish with Highest Distinction
Purdue University, West Lafayette, Indiana
GPA: 4.0

Honors Thesis: Unlocking the potential of community-based services to promote holistic life outcomes for individuals with autism and developmental disabilities
Advisor: Jason Ware, Ph.D.

Awards & Honors

Dean's List and Semester Honors	Fall 2021 – Spring 2025
Sleep Research Society 2024 Infographic Contest First Place Winner	May 2024
Office of Undergraduate Research Professional Development Grant ($500)	May 2024
Purdue Autism Research Center Student Travel Grant ($500)	April 2024
Purdue Office of Engagement Service Learning Grant ($500)	March 2024 & October 2023
INSAR Student and Trainee Travel Award ($500)	February 2024
Honors College Creative Endeavors Scholarship ($1,000)	December 2023
Poster Award (Honorable Mention, $200) – *Purdue Psychological Sciences Conference*	April 2023

Research Experience

Clinical Research Coordinator June 2025 – Present
Principal Investigators: Latha Valluripalli Soorya, Ph.D. and Allison Wainer, Ph.D.
Autism Assessment, Research, Treatment, and Services Center, Rush University Medical Center

- Serve as the primary point of contact for 50+ caregivers of children with syndromic IDD on an NICHD-funded behavioral intervention clinical trial, coordinating participant engagement, study visit scheduling, and retention efforts from baseline through study completion.
- Lead research dissemination efforts as first author for three conference poster presentations, from hypothesis generation to analysis in R, and as second author on an investigator-initiated protocol manuscript submitted for publication.

- Monitor and maintain data integrity across timepoints by coordinating with study therapists and staff to ensure adherence to assessment timelines.
- Maintain trial compliance with the Institutional Review Board (IRB) by writing and submitting amendments and keeping materials up to date, including the study protocol and intervention manual.
- Train and mentor research staff using self-developed, standardized process documents to ensure compliance with the study protocol.
- Lead and coordinate meetings with the research coordinator and principal investigator teams to support ongoing trial operations.

Undergraduate Research Assistant January 2024 – May 2025

Sleep and Developmental Studies Lab, Purdue University

Principal Investigator: A.J. Schwichtenberg, Ph.D.

- Co-authored a systematic review on pediatric sleep in Angelman syndrome, including contributions to draft development, article synthesis, and data extraction.
- Analyzed survey data from autistic youth in R and coded R script training modules to support lab professional development.
- Conducted qualitative rapid analyses for caregiver/clinician interviews and focus group transcripts.
- Scored and quality-checked clinical measures for participants, including the MacArthur-Bates Communicative Development Inventories and Vineland Adaptive Behavior Scales, Third Edition.

Undergraduate Research Assistant August 2022 – May 2025

TREKS Research Generator: Students in Action College Coaching, Purdue University

Principal Investigator: Jason Ware, Ph.D.

- Developed and piloted a novel near-peer mentor role, mentoring ~10 high school students in a service-learning club, Students in Action, collecting field notes on coaching experiences.
- Disseminated findings regarding the implementation of the role in an academic journal through a co-authored article with SIA students and their club advisor.
- Co-led and planned two professional development conferences for 50+ middle school and high school students through creating and leading dynamic lessons and activities.
- Wrote and received grants ($1000) to fund student-led projects developed through co-facilitated brainstorming sessions.

Undergraduate Research Assistant January 2022 – May 2024

The Kelleher Lab (formerly The Neurodevelopmental Family Lab), Purdue University

Principal Investigator: Bridgette Kelleher, Ph.D.

- Administered telehealth-based PANDABox assessments to caregivers of neurotypical and neurodiverse infants, including those with genetic conditions (Angelman, Down, and Fragile X syndrome) and siblings of autistic children.
- Piloted, refined, and applied an objective behavioral coding scheme examining joint engagement among infants with genetic syndromes in parent-child interaction videos.
- Coordinated participant recruitment, retention, and communication as well as oversaw PANDABox data processing (behavioral, clinical, genetic, physiological, survey, vocalization) and material organization.
- Co-developed open-science resources, including protocol documents and video tutorials, for the distribution of PANDABox resources.

Zeri, H., Hamrick, L., Kelleher, B., & Neo, W. S. (2024, May 15–18). *Nonverbal and verbal scaffolding by caregivers of infants and toddlers with an elevated likelihood for autism during caregiver-child play: Associations with child joint engagement and communication ability* [Poster presentation]. 23rd International Society for Autism Research Annual Meeting, Melbourne, Victoria, Australia.

Neo, W. S., **Zeri, H.,** Estrada, K., Anthony, F., Kelleher, B., & Hamrick, L. (2024, May 15–18). *Prolonged object play during toddlerhood: A candidate behavioral marker of increased likelihood for autism spectrum disorder* [Poster presentation]. 23rd International Society for Autism Research Annual Meeting, Melbourne, Victoria, Australia.

Zeri, H., Neo, W. S., & Ware, J. (2024, April 8–10). *Unlocking the potential of community-based services to promote holistic life outcomes for individuals with autism and developmental disabilities* [Poster presentation]. National Conference on Undergraduate Research, Long Beach, CA, United States.

Kelleher, B., Estrada, K., **Zeri, H.,** Springer-Wheeler, D., Seidl, A., Hamrick, L., Neo, W. S., Harold, R., Galvez, K. O., & Foti, D. (2023, November 3). *PANDABox (Parent Administered Neurodevelopmental Assessment) for remote monitoring of high-risk children* [Oral presentation]. NIH Remote Neuropsychological Assessments in Research: Present and Future Needs, virtual.

Zeri, H., Mitchell, S., Wallner, J., Kelleher, B., & Neo, W. S. (2023, April 14). *Early joint attention and language development in neurogenetic syndromes* [Oral presentation]. 33rd Butler Undergraduate Research Conference, Indianapolis, IN, United States.

Zeri, H., Gloyeske, N., Guardado, E., & Ware, J. (2023, April 10). *"Students in Action": College students' experiences in facilitating middle and high school students' community projects* [Oral presentation]. Purdue Undergraduate Research Conference, West Lafayette, IN, United States.

Zeri, H., Mitchell, S., Wallner, J., Kelleher, B., & Neo, W. S. (2023, April 7). *Predictive value of early joint attention for later absolute and relative language abilities in neurogenetic syndromes* [Poster presentation]. 2023 Purdue Autism Research Center Annual Conference, West Lafayette, IN, United States.

Anthony, F., **Zeri, H.,** Neo, W. S., & Kelleher, B. L. (2022, October 20). *Conducting telehealth assessments with PANDABox* [Conference demonstration]. ABC's of Remote Assessment:

Advances in Biobehavioral and Clinical Health Assessments, West Lafayette, IN, United States.

Clinical Experience

Social Skills Group Facilitator September 2025 – August 2026

Autism Assessment, Research, Treatment, and Services Center, Rush University Medical Center, Chicago, Illinois

- Co-led social communication skills groups for children and adolescents with autism, including PEERS and NETT, by leading dyadic lessons, facilitating skills practice, providing behavioral feedback, and contributing to clinical documentation.
- Developed NETT intervention materials, such as child group session presentation visuals, and organized caregiver binders as well as internal staff materials.

Direct Support Professional November 2022 – May 2025

Grant's House, Wabash Center, Lafayette, Indiana

- Provided personalized care for children and adolescents with intellectual and developmental disabilities, autism, and other neurodevelopmental conditions.
- Planned activities to promote independent daily living skills, monitored progress towards individualized goals, and collaborated with multidisciplinary care teams.

Camp ANDY Counselor June 2024 – August 2024

Camp ANDY, Seattle, Washington

- Implemented an intensive, evidence-based Summer Treatment Program (STP) designed to help children with autism and attention-deficit/hyperactivity disorder (ADHD) build social and emotional regulation skills in a summer camp setting.
- Collected clinical data, provided live feedback on campers' behaviors, developed individualized daily goals to promote prosocial behaviors, and collaborated with caregivers to implement at-home rewards.
- Administered program evaluation outcome measures, including camper-report surveys on quality of life, social connections, and belonging.

Leadership Experience

President May 2024 – May 2025

Boilers Supporting Boilers, Purdue University

- Led the Board of Directors by delegating responsibilities, ensuring team accountability, and maintaining relationships with other campus organizations to increase outreach.
- Increased membership to 300 students by hosting two campus-wide events per month and implementing new branding to boost engagement.
- Represented the board to university administration and faculty, and managed grants and budgets ($15,000) for events and organizational costs.

Director of Training May 2023 – May 2024

Boilers Supporting Boilers, Purdue University

- Designed and organized training for peer support group leaders on topics including neurodiversity, diversity, equity, and inclusion (DEI), interpersonal violence disclosure, and peer facilitation.

Peer Support Group Facilitator January 2022 – May 2023

Boilers Supporting Boilers, Purdue University

- Organized weekly mental health and well-being groups to foster a welcoming space for students to engage in conversations and leisure activities with peers.

Lead Undergraduate Research Assistant August 2022 – May 2023

The Kelleher Lab (formerly The Neurodevelopmental Family Lab), Purdue University

- Served as the liaison between lab leadership and ~30 undergraduate research assistants, which included planning professional development and team-building activities for the lab.

Professional Skills

- *Data analysis and coding:* R, SPSS
- *Research tools:* ELAN (Video and audio annotation & behavioral coding tool), REDCap, Qualtrics, Power Automate robotic process automation
- *Languages:* Spanish, Professional working proficiency

Professional Affiliations

Phi Beta Kappa, *Young Alumni Member* April 2024 – Present
American Psychological Association (APA), *Student Member* November 2023 – Present
International Society for Autism Research (INSAR), *Student Member* September 2023 – Present
Psi Chi, *Student Member* August 2022 – Present
